

Call for Poster Abstracts

The NNA is seeking abstract/presentation submissions from all Nebraska nurses and student nurses as an opportunity to showcase your research or evidence-based practice at the 2021 NNA Annual Convention. Convention attendees will be able to view your poster in a virtual e-poster gallery throughout the on-demand convention window.

Guidelines:

- 1) Abstracts must be submitted by July 1, 2021 using the online submission form
 - **NOTE:** Submission form fields reflect the scoring rubric to be used by peer reviewers
- 2) Abstracts should be prepared for blind review by removing all identifying information (names, affiliations) from the body of the abstract
- 3) Names, credentials, organization/institution affiliations must be provided for all authors in the demographic section of the online form. One primary contact should be identified along with all additional authors

If an abstract is selected the author(s) must do the following:

- Submit a completed Conflict of Interest Form – each author must complete a form which will be sent to the primary contact
- Submit their final poster presentation as a PowerPoint slide presentation through the online portal by August 10, 2021

Abstracts will be featured on the NNA Annual Convention on-demand site for viewing by convention registrants. If an author wishes to have access to the e-poster gallery during the Annual Convention, they must register for the virtual event.

Decisions will be sent via email no later than July 19, 2021.

For a sample evaluation tool, please see page 2 of this PDF.

To apply, please fill out the web form at: <https://nebraskanurses.org/21ac-posters>

If you have any questions, please contact Sara Fry at sara@midwestnurses.org.

ABSTRACT RATING/REVIEW CRITERIA EVALUATION TOOL

ABSTRACT NUMBER:

LEGEND: 3 = Clearly Articulated and Developed

2 = Fairly Well Articulated, but Not Fully Developed, 1 = Not Present OR Poorly stated

SELECT ONE: **Qualitative Research** **Quantitative Research**

Evidence-Based Practice/Quality Improvement

Poster Title:	3	2	1
Clear research or PICOT question			
Background & Significance (describe the knowledge base presenter is building on, and the importance of the study purpose/aims)			
Design (state type of study)			
Setting			
Sample			
Methods (method of data collection and method of data analysis)			
Results			
Implications for practice (describe the meaning of findings, and practice implications/application; and implications for future research)			

Total Score _____ out of 24
